

# How to Setup an Email Signature Line

## Android – Configuration

1. Click on **Settings**

2.
  - a. Select **Accounts**, or **Cloud and account** depending on your device
  - b. Select **Accounts**
  - c. Select **Microsoft Exchange** or **Exchange**

3. Select **Settings** or **Account Settings**

4. Select the **account** you would like to add the signature.

**Note:** if you have more than one email account, you will need to setup different signature lines.

5. Select **Signature**
