Academic Computing

The Academic Computing staff welcomes all students, faculty and staff to make maximum use of our facilities. The mission of our computer labs is to provide academic computing services to meet your instructional and research needs. We serve experts as well as novices.

Academic Success Center

Advising is an ongoing relational process designed to help students achieve high standards in their academic and professional goals. Academic Success Coaches will be working closely with faculty advisers to ensure that you are successful in your academic journey. Meet with your Academic Success Coach to: Set educational and career goals, choose the right courses to stay on track towards graduation, take advantage of academic support services.
