

eLearning COURSES

AT BRONX COMMUNITY COLLEGE

(Spring 2015)

What are eLearning Courses?

In eLearning Courses, part or all of the traditional classroom meetings are replaced with online activities.

There are four types of eLearning courses at BCC:

CUNYfirst Code	CUNYfirst Definition
PO	Partially Online. <u>Up to 32%</u> of scheduled class meetings are replaced with online activities or virtual meetings.
H	Hybrid. <u>Between 33% and 80%</u> of scheduled class meetings are replaced with online activities or virtual meetings.
O	Online. <u>More than 80% but less than 100%</u> of scheduled class meetings are replaced with online activities or virtual meetings.
FO	Fully Online. <u>100%</u> of scheduled class meetings are replaced with online activities or virtual meetings. All of the class work, including exams, is online.

While the above chart provides guidelines for the amount of online activities, the exact amount of online activities varies from course to course. See the list of courses below and contact the individual instructors to learn more about specific courses.

Should I take a eLearning Course?

To succeed in eLearning courses, students must be self-disciplined and good at managing their time and following directions. These characteristics are much more important than skill with computers.

To check your suitability for taking an eLearning course, take this self-test: http://www.bcc.cuny.edu/OnlineLearning/?page=Are_Online_Courses_for_you

What is required to take a eLearning Course?

- It is strongly recommended that students have access to the Internet at home. It will be very difficult to take an eLearning course without online access at home.
- Basic Knowledge of a word processor (Microsoft Word is strongly recommended) and a web browser (Internet Explorer, Mozilla Firefox and Google Chrome are the most used browsers).
- A GPA of 2.0 or Higher.
- A CUNY Portal Account and an active BCC Email account. All students have a BCC email account.
 - To use or activate your email account, go to: www.bcc.cuny.edu/email.
 - To use or create a CUNY Portal account, go to: portal.cuny.edu, then click on "Log-in".
 - If you experience difficulty with either mail or portal accounts contact the Technology Service Center at 718-289-5970 or tsc@bcc.cuny.edu.
